**CAP PARK 101**

Prior to the construction of the 101 Freeway, El Pueblo and the civic core were once connected with a friendly pedestrian environment. But the development of the freeway network, plus increased automobile ownership, forced Los Angeles to develop a car-dominated Downtown core. Park 101 is a visionary urban design solution to cap the 101 Freeway in Downtown Los Angeles and to bring it back to its pedestrian-friendly atmosphere. It will reconnect the city's historic core north of the freeway with the civic, cultural, and financial cores of Downtown Los Angeles to the south. Join us to hear about the status of this effort and what development opportunities are available.

**Special Guests:** *Cecilia Estolano, ELP Advisors; and Elizabeth Peterson, EPGLA*

**PARK FEE UPDATE**

The Parks Dedication and Fee Update ordinance was passed in September 2016 and took effect on January 11, 2017. The ordinance requires most residential projects that create new dwelling units or joint living and work quarters to dedicate land or to pay a fee for the purpose of developing park and recreational facilities. Join us to hear how this ordinance affects future developments in the city and how the funds will be utilized.

**Special Guest:** *Darryl Ford, Department of Recreation and Parks*
